Streamwood residents,

As we conclude with the holidays and move into warmer and sunnier days, and ultimately a new decade, our thoughts turn towards “pitchers and catchers reporting to spring training” and outdoor activities. If you are like me, you want to shed some excess pounds from the holiday season, and are itching to get back into a great exercise routine. We have a lot of great programs and activities to help you reach your 2020 goals.

Starting in May, we'll be rolling out our brand new “Summer Concert Series”. This 3-part event will also be happening in June and August at Hoosier Grove Park. We're excited to bring something to the patrons that hasn't been done yet. In this series, patrons will get the chance to hear live music on stage while also partaking in tasty food truck offerings and some craft brewery selections. Park Pride Day, our annual community-wide park clean-up initiative, turns 10 years old in 2020. We're hoping to add to the huge popularity and success from 2019 with a big blowout to celebrate 10 successful years of partnership with the community. Last, but certainly not least, our annual Streamwood Stride 5K/10K/Kiddie Run is back. Yours truly has become a master pancake and sausage chef at the post-race breakfast over the years. What better way to enjoy a quality breakfast than by running through the streets of Streamwood. So please come and say hello. I'll be the guy holding the spatula.

Please look at to our seasonal program guides to check out our up-and-coming offerings. Several specials will also be going on, so please check out our website at www.StreamwoodParks.org to look at specials that interest you.

I look forward to taking in the new seasons, a new year, and starting a new decade with you. I am grateful to be able to move “Forward Together” with you all in 2020.

Sincerely,

Bill Wright
Streamwood Park District
Board President
