**INDEPENDENT AUDITOR'S REPORT**

The Board of Commissioners  
Streamwood Park District, Streamwood, Illinois

**Opinions**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Streamwood Park District, Streamwood, Illinois as of and for the year ended April 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Streamwood Park District, Streamwood, Illinois, as of April 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Streamwood Park District, Streamwood, Illinois, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Streamwood Park District, Streamwood, Illinois's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Streamwood Park District, Streamwood, Illinois’s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Streamwood Park District, Streamwood, Illinois’s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

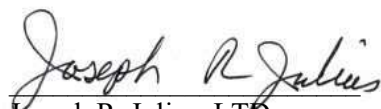

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Streamwood Park District, Streamwood, Illinois’s basic financial statements. The combining and individual nonmajor fund financial statements, budgetary comparison information, schedule of cash and investments, schedule of real estate assessed valuation and tax levies, and the long term debt schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor’s report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

STREAMWOOD PARK DISTRICT, STREAMWOOD, ILLINOIS  
MANAGEMENT'S DISCUSSION & ANALYSIS  
FOR THE YEAR ENDED APRIL 30, 2023

---

The Streamwood Park District discussion and analysis is offered to readers of the Park District's financial statements to: (1) summarize the financial highlights of the Park District, (2) present an overview of the Park District's financial position, (3) evaluate the Park District's recent activities resulting in net asset changes, (4) examine significant differences between the original budget, the final amended budget and final results, (5) review material changes in capital assets and long-term debt, and (6) recognize current facts or conditions that will impact the Park District.

The financial statements are prepared in accordance with generally accepted accounting principles (GAAP), and follow the guidelines of the Governmental Accounting Standards Board (GASB) in its Statement No. 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments." This standard requires financial reporting for the Park District in conformity with full accrual accounting, including the reporting of all capital assets net of depreciation.

We encourage readers to consider the information presented in the MD&A with the Park District's Financial Statements.

### **Financial Highlights**

- The total assets of Streamwood Park District exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$17,157,746. Of this amount, \$2,776,813 represents unrestricted net position, which may be used to meet the Park District's ongoing obligations to citizens and creditors.
- At the close of the current fiscal year, the Streamwood Park District's governmental funds reported combined fund balances of \$9,923,033, which was an increase of \$1,335,263 from the prior year.
- Property taxes levied and collected for the current year were \$5,641,966, an increase of \$290,774 over the prior year for a 5.4% change.
- Capital outlays of \$1,137,131 were expended in the twelve months ended April 30, 2023 to maintain and develop the Park District's parks and recreational facilities.

### **Overview of the Financial Statements**

Management's Discussion and Analysis introduces the Park District's basic financial statements. The basic financial statements are: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide Financial Statements.** The government-wide financial statements incorporate all of the Park District's governmental activities, in a manner similar to a private-sector business, using the economic resources measurement focus and the accrual basis of accounting.

The statement of net position presents financial information on all of Streamwood Park District's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Park District is improving or deteriorating.

STREAMWOOD PARK DISTRICT, STREAMWOOD, ILLINOIS  
MANAGEMENT'S DISCUSSION & ANALYSIS  
FOR THE YEAR ENDED APRIL 30, 2023

---

The statement of activities presents information showing how Streamwood Park District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave)

Both of the government-wide financial statements distinguish functions of the Park District that are principally supported by taxes (governmental activities) or from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. The governmental activities of the Park District include general government, culture and recreation. There are no business-type activities of the Streamwood Park District. The Park District does not manage any fiduciary activities such as employee pension plans. Fiduciary activities would be included in the government-wide statements since those assets would not be available to fund programs.

**Fund Financial Statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Streamwood Park District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. With the focus on significant balances and operations, major funds are reported individually, while all others are combined into a single, aggregated presentation.

Governmental Funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows and outflows of available resources, as well as on balances of expendable resources available at the end of the fiscal year. This information is useful in evaluating a government's near-term financing requirements.

The short-term focus of governmental funds is narrower than the long-term focus of the government-wide financial statements, making it useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Park District maintains individual governmental funds to control resources for individual activities or objectives. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for activities considered as major funds. Major funds are those whose revenues, expenditures/expenses, assets or liabilities are at least ten percent of the total for their fund category or type (governmental or enterprise) and at least five percent of the aggregate amount for all governmental and enterprise funds. Any fund may be reported as a major fund if management considers the fund particularly important to financial statement users. Data from the other governmental funds are combined into a single aggregated presentation. Individual fund data for each of the non-major governmental funds is provided in the form of combining statements in the supplementary information section.

The Streamwood Park District adopts an annual appropriated budget. Budgetary comparison schedules are included as required supplementary information for the General Fund and Recreation Fund and demonstrate compliance with the budget. Budgetary comparison schedules for other funds can be found in a later section of this report.

Proprietary Funds are used to report the Park District's business activities in enterprise funds and government functions in internal service funds. The Streamwood Park District does not currently have any proprietary funds.

**Notes to the Financial Statements.** Additional information that is essential to a full understanding of the government-wide and fund financial statements is provided in the notes to the financial statements.

**Other Information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Park District's progress in funding its obligation to provide pension benefits to its employees, and the aforementioned budgetary comparison schedules for the General Fund and major Special Revenue Funds.

Total Net Position	\$ 17,157,746	\$ 15,470,240	\$ 1,687,506

Current assets had a significant increase over the previous year. This was due to an increase in cash due to the bond issuances during the year. The District issued \$1,750,000 of bonds during the year.

Net capital assets decreased \$15,179 with a depreciation expense of \$1,135,649 during the year.

Liabilities increased with an increase in the pension liability of \$2,017,138 to \$956,054. Much of the volatility of the pension liability is a reflection of fluctuations in the investment markets. Bond principal outstanding decreased with the payment of \$2,054,000 net of the issuance of the Series 2022A Bonds.

Net position increased \$1,687,506 for the fiscal year to a total of \$17,157,746. Restricted balances decreased \$273,538 due to the use of the capital improvements funds.

 MANAGEMENT'S DISCUSSION & ANALYSIS  
 FOR THE YEAR ENDED APRIL 30, 2023

---

**General Fund Budgetary Highlights**

The Board of Commissioners and management of Streamwood Park District prepared and approved an April 30, 2023 fiscal year budget. During the fiscal year, the approved budget did not have any revisions. All of the fund's expenses remained below approved appropriations.

The revenue budget, not including debt service receipts was \$7,680,040 while actual revenues were \$7,505,594. The total operating expense budget (not including debt service payments) was \$15,298,278. Actual expenses for the year were \$6,591,262. This was 56% under budget.

The District utilizes many part-time workers who are paid at the minimum wage level. There was an increase of \$1 per hour on January 1, 2022 with another increase on January 1, 2023. The District is budgeting for this increases. These 2023 increase will bring the minimum wage to \$13.

**Capital Assets**

The largest portion of the Streamwood Park District's Net Position reflects its investment in capital assets (e.g., land, buildings, land improvements and equipment) less any related debts used to acquire those assets that are still outstanding. Capital assets are used to provide services to users of the District and are not available for future spending.

As of April 30, 2023, Streamwood Park District had \$30,751,077 invested in capital assets. This is an increase over last year of \$1,120,470. Capital assets net of depreciation equaled \$16,259,563, at year end. Annual depreciation expense was \$1,135,649 and amortization on bond sale premiums and discounts was \$0.

This year's major additions of assets were:

	Additions	Deletions
Park land improvements	\$ 43,170	\$ -
Building improvements	735,162	-
Vehicles	10,120	-
Equipment	332,018	-
Total	\$ 1,120,470	\$ -

More detailed information may be found at Note 5.

STREAMWOOD PARK DISTRICT, STREAMWOOD, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
APRIL 30, 2023

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Streamwood Park District operates under a Board of Commissioners/Director form of government. The District's major operations include community leisure time and recreational service offering a variety of programs.

The District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the District are discussed below.

**A. REPORTING ENTITY**

The financial statements of the District are only for funds of the District as the District has no oversight responsibility for any other governmental entity since no other entities are considered to be controlled by or dependent on the District. Control or dependence is determined on the basis of budget adoption, taxing authority, funding and appointment of the respective government Board. Based on this criteria, there are no additional organizations included in the accompanying financial statements.

**B. BASIC FINANCIAL STATEMENTS**

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The District's general administrative services, special revenue funds, capital improvement, and debt service are classified as governmental activities. The District has no business-type activities and no fiduciary funds. Governmental fund financial statements include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Government-Wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported. Business-type activities, which rely to a significant extent on fees and charges for support, would be reported separately from the government activities but the District does not have any business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) Charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) Grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)  
**B. BASIC FINANCIAL STATEMENTS** – (continued)

Fund Financial Statements

The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, receipts and disbursements. District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. The various funds are reported by generic classification within the financial statements.

GASB Statement No. 34 sets forth minimum criteria (percentage of the assets/deferred outflows, liabilities/deferred inflows, receipts and disbursements of fund category) for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements. A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

Total assets/deferred outflows, liabilities/deferred inflows, receipts and disbursements of that individual governmental fund are at least 10 percent of the corresponding total for all funds of that category or type; and

Total assets/deferred outflows, liabilities/deferred inflows, receipts and disbursements of that individual governmental fund are at least 5 percent of the corresponding total for all governmental funds combined.

The following fund types are used by the District:

1. Governmental Funds - The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:

A. General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

B. Special Revenue Funds are used to account for receipts which are designated by law to finance particular functions or activities of government and which, therefore, cannot be diverted to other uses.

Recreation Fund - This Fund was established to account for the revenue and expenditures of an annual property tax levy and other revenues to be used for recreation purposes.

Illinois Municipal Retirement Fund (IMRF) - This Fund accounts for revenues and expenditures of an annual property tax levy to be used for the employee pension plan.

Social Security Fund - This Fund was established to account for revenues and expenditures of an annual property tax levy to be used for payments for the employer's share of Social Security Insurance and Medicare payroll tax.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING**

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus refers to the type of resources being measured such as current financial resources or economic resources. The basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues and additions are recorded when earned and expenses and deductions are recorded when a liability is incurred. Property taxes levied are recognized as revenues in the fiscal year in which they are received. Taxes levied but not collected are recorded as unearned revenue. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Operating revenues/expenses include all revenues/expenses directly related to providing enterprise fund services. Incidental revenues/expenses are reported as non-operating.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measureable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Property taxes, investment earnings, and charges for services are the primary revenue sources susceptible to accrual. All other revenues are recognized when cash is received. Expenditures are recorded when the related fund liability is incurred.

Resources not available to finance expenditures and commitments of the current period are recognized as unearned revenue or a reservation of fund equity. Liabilities for claims, judgments, and pension contributions, which will not be currently liquidated using expendable available financial resources are included as liabilities in the government-wide financial statements, but are excluded from the governmental funds financial statements. The related expenditures are recognized in the governmental fund financial statements when the liabilities are liquidated.

The District reports unearned and unavailable revenue on its financial statements. Unearned and unavailable revenues arise when a potential revenue does not meet the measurable, available or earned criteria for recognition in the current period. Unavailable revenues also arise when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met or when the District has a legal claim to the resources, the liability for unearned and unavailable revenue is removed from the financial statements and revenue is recognized.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**  
**D. FINANCIAL STATEMENT AMOUNTS**

1. Cash and Cash Equivalents - The District's cash and cash equivalents are considered to be cash on hand and include demand deposits and short-term investments with original maturities of one year or less from the date of acquisition. Cash and cash equivalents are combined with investments and displayed as cash in all funds.
2. Investments – Investments are required to be recorded at fair value as determined by GASB Statement No. 72. Fair value measurement amounts are based on a quoted price in an active market for an identical asset or liability at year end. Investments not required to be reported at fair value are stated at cost or amortized cost. The District only has investments of less than one year, non-negotiable certificates of deposits, or other nonparticipating investments which are stated at cost or amortized cost. The District did not hold any investments that were required to be measured at fair value as of April 30, 2021. These investments were recorded as cash and cash equivalents on the financial statements.
3. Receivables – All trade and property tax receivables are shown net of an allowance for uncollectible amounts.
4. Prepaid Items / Expenses – Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid items/expenses.
5. Capital Assets: Capital assets, which include property, building materials, furniture and equipment are reported in the government- wide financial statements. Capital assets are defined by the District as assets with an individual cost or materially grouped cost of \$5,000 or more which have an estimated useful life five years or more. Such assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. Items that do not meet the above criteria are treated as an expense of the current period.

Capital Assets are depreciated by the straight line method of depreciation using the following schedule of estimated useful life:

<u>Type of Asset</u>	<u>Life in Years</u>
Buildings	40
Building Improvements	20
Materials	5-7
Furniture & Equipment	5-7
Computer & Electronics	3-5

Depreciation of capital assets as an expense for each year of useful life of an asset or group of assets is calculated using the straight-line method. Depreciation is calculated for all capital assets except land and possibly artwork, collections, and historical treasures.

$$\text{Annual depreciation} = \frac{\text{Total cost} - \text{residual value}}{\text{Estimated useful life}}$$

Unless an asset is specific to a special revenue fund, all capitalized assets and depreciation expense are disclosed in the General Fund.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**D. FINANCIAL STATEMENT AMOUNTS (continued)**

6. Infrastructure  
Infrastructure assets are generally assets that have a significantly longer useful life than normal capital assets and are stationary in nature, such as roads, bridges, tunnels, water systems, etc. The District does not own any asset that would be classified as infrastructure. The possibility that the District would obtain or construct infrastructure assets in the future is remote.
7. Long-Term Debt - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. In the fund financial statements, governmental fund types recognize the face amount of debt issued and is reported as other financing sources. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported separately from the applicable bond premium or discount.
8. Interfund Receivables and Payables - During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Those related to goods and services type transactions are classified as “due to and from other funds.” Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Position.
9. Interfund Transfers – Permanent reallocation of resources between funds of the reporting entity are classified as interfund transfers. For the purposes of the Statements of Activities, all interfund transfers between individual governmental funds have been eliminated.
10. Compensated Absences – Full-time employees are eligible for vacation from 10-20 days per year depending on the number of years employed with the District. Unused earned vacation days may carry over in addition to current year earned vacation, up to a maximum of 40 days. A liability is recorded for the unused portion of vacation time earned.  
  
Part-time employees earn time off for vacation, sick or other personal use. The amount varies with length of employment up to a maximum of 35 hours. Time earned does not carry over into the next period and is not paid at termination of employment. No liability has been recorded. Employees earn sick leave at the rate of 1 day per month and may accumulate to a maximum of 120 days. Unused sick leave is not paid at termination and is not recorded as a liability.
11. Fund Balance / Net Position – Governmental Funds’ equity are classified as fund balance. Fund balance is further classified as nonspendable, restricted, committed, assigned or unassigned. Nonspendable fund balance is reported for amounts that are either not in spendable forms or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose, or externally imposed by outside entities. Committed fund balance is constrained by formal actions of the Board of Commissioners, which is considered the District’s highest level of decision making authority. Formal actions include ordinances approved by the District board. Assigned fund balance represents amounts constrained by the District’s intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the Executive Director through the approved fund balance policy of the park district. Any residual fund balance of the General Fund and any deficits in other funds, if any, are reported as unassigned.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**  
**D. FINANCIAL STATEMENT AMOUNTS (continued)**

11. Fund Balance / Net Position (continued)

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending the District considers committed funds to be expended first followed by assigned and then unassigned funds.

In the government-wide financial statements, restricted net positions are legally restricted by outside parties for a specific purpose. Net investment in capital assets represents the District's investment in the book value of capital assets, less any outstanding debt that was issued to construct or acquire the capital asset. Unrestricted net position consists of assets that do not meet the definition of restricted or net investment in capital assets.

12. Deferred Outflows/Inflows of Resources – In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows or resources. This separate financial statement element, deferred outflows of resources represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenues) until that time.

13. Post-Employment Benefits – The District offers defined benefit OPEB benefits through the PDRMA Health Plan, administered by PDRMA, a public entity risk pool. The OPEB plan is not administered by a Trust that meets the criteria in paragraph 4 of GASB Statement 75. A net OPEB liability is recorded in the government-wide financials statements but not in the governmental fund financial statements.

**NOTE 3 - DEPOSITS AND INVESTMENTS**

The District maintains a cash and investment pool that is available for use by all funds. Each fund’s portion of this pool is displayed on the financial statements as “Cash and Investments.” The investments are governed by an investment policy adopted by the Board of Commissioners.

In accordance with the District’s investment policy, the District’s monetary assets may be placed in any instruments permitted by the Illinois Public Funds Investment Act. This act permits deposits and investments in insured commercial banks, savings and loan institutions, obligations of the U. S. Treasury and U. S. Agencies, repurchase agreements of government securities, short-term commercial paper rated within the three highest classifications by at least two standard rating services, interest bearing bonds of any local government within the State of Illinois, and the Illinois Funds and the Illinois Park District Liquid Asset Fund money market funds. During the year, the District limited its investments to insured accounts at a local bank and to money market and certificate of deposit accounts held at Illinois Funds and the Illinois Park District Liquid Asset Fund.

It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the “prudent person” standard for managing the overall portfolio. The primary objective of the policy is safety (preservation of capital and protection of investment principal), liquidity and yield.

At year end the carrying amount of the District’s deposits totaled \$13,761,883. The bank balances were \$13,185,460.

Governmental Accounting Standards Board Statement No. 31, *Accounting and Financial Reporting for Certain Investments and External Investment Pools*, establishes standards for accounting for investments held by governmental entities. The Illinois Funds and the Illinois Park District Liquid Asset Fund (IPDLAF) are external investment pools and the District’s deposits in these pools are in accordance with Section 8-8 of the Illinois Park District Code of the State of Illinois. Illinois Funds and IPDLAF are not SEC registered and are operated in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Rule 2a7 allows mutual funds to use amortized cost rather than fair market value to report net assets to compute share prices if certain conditions are met. Some of those conditions include restrictions on the types of investments held and restrictions on the term-to-maturity of individual investments. Amortized cost is used by external investment pools with the absence of traded or quoted prices and is compliant with generally accepted accounting principles in the United States. The District had \$6,734,132 deposited with Illinois Funds and \$5,057,553 in IPDLAF.

The District does not have any investments recorded at fair value. Cash and cash equivalents were deposited in the following manner as of April 30, 2023:

	Maturities of One		
	Carrying Amount	Year or Less	Total
Cash and Checking	\$ 523,198	\$ -	\$ 523,198

**NOTE 3 - DEPOSITS AND INVESTMENTS (continued)**

In accordance with its investment policy, the District limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for operating funds and investing operating funds primarily in shorter-term securities. Unless matched to a specific cash flow, the District will not invest operating funds in securities maturing more than one year from the date of purchase. In addition, the policy requires the District to structure the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity.

*Credit Risk* - Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District limits its exposure to credit risk, the risk that the issuer or a debt security will not pay its par value upon maturity, by primarily investing in federally insured bank accounts and certificates of deposit and by having these accounts collateralized by the pledging of securities with a third party.

*Custodial Credit Risk – Deposits* - In the case of deposits, this is the risk that in the event of a bank failure, the District’s deposits may not be returned to it. To cover this risk, the District’s policy is to have all deposits and certificates of deposit covered by federal depository or equivalent insurance or collateral.

*Custodial Credit Risk – Investments* - For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Money market mutual funds and equity mutual funds are not subject to custodial credit risk.

*Concentration of Credit Risk* - This is the risk of loss attributed to the magnitude of the District’s investment in a single issuer. At year end, the District had all of its assets invested in bank certificates of deposit as indicated in the table above. As these certificates are generally for a duration of 1 year or less and are federally insured, the concentration of credit risk is minimized.

Concentration of credit risk - The District’s investment policy limits the amount of the portfolio that can be invested in any one investment vehicle as follows:

<u>Diversification by Instrument</u>	<u>Percent of Portfolio</u>
Cash and Checking	0 - 25%
Money Market Funds	0 - 90%
Certificates of Deposit	0 - 90%
US Treasury Notes and US Govt. Agency Securities	0 - 90%

<u>Diversification by Instrument</u>
Monies deposited at a financial institution
No more than 75% of the capital stock and surplus of that institution

The District’s investment policy specifically prohibits the use of or the investment in derivatives unless specifically authorized by the Board of Commissioners.

**NOTE 4 - PROPERTY TAXES**

Property taxes are recognized as revenue in the year in which they are received in cash except that taxes received after January 1<sup>st</sup> from the most current year's tax levy are treated as unavailable revenue liability. The unavailable revenue liability taxes were levied for in December of 2022 and will be recorded in fiscal year 2024 as revenue. Property taxes attach as an enforceable lien on property as of January 1<sup>st</sup> of the following year. Property taxes recognized as revenue on these financials are from the 2021 tax year levy.

Taxes are levied in December and are payable in two installments in March and August. Property taxes are billed and collected by the County which in turn remits them to the District. The first installment is an estimated bill and is 55% of the prior year's tax bill. The second installment is based on the current levy, assessment and equalization, and any changes from the prior year will be reflected in the second installment bill. Payments are typically made on the first day of the month during the period February through October.

Based on collection histories, the District has provided no allowance for uncollectible real estate taxes as of April 30, 2023.

**NOTE 5 - CAPITAL ASSETS AND DEPRECIATION**

The District records capital assets in the Governmental Funds. The District began recording capital assets as of May 1, 2004 at historical cost or their cost at time of purchase. Assets of the District prior to this date were determined at an estimated value of the assets, useful life remaining, and depreciation.

**NOTE 6 – EMPLOYEE RETIREMENT SYSTEM - IMRF**

Effective April 30, 2018, the District implemented GASB Statement No. 68 *Accounting and Financial Reporting for Pensions*. For state and local governments that contribute to a Defined Benefit (DB) pension plan administered through a trust or equivalent arrangement, Governmental Accounting Standards Board (GASB) Statement No. 68 established standards for pension accounting and financial reporting. GASB Statement No. 68 requires state and local government employers that contribute to DB pension plans to recognize the net pension liability and the pension expense on their financial statements, along with the related deferred outflows of resources and deferred inflows of resources. The net pension liability is the difference between the total pension liability and the plan’s fiduciary net position. In traditional actuarial terms, this is analogous to the accrued liability less the market value of assets (not smoothed actuarial value of assets that is often encountered in actuarial valuations performed to determine the employer’s contribution requirement). This statement amends the requirements in Statement No. 27 *Accounting for Pensions by State and Local Governmental Employers* as well as the requirements of Statement No. 50 *Pension Disclosures*.

**Plan Description and Benefits** – The District’s defined benefit pension plan for regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The employer plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained on-line at [www.imrf.org](http://www.imrf.org).

IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

**Plan Membership**

Employee membership data related to the Plan, as of measurement date of December 31, 2022, was as follows:

Retirees and Beneficiaries	42
Inactive, Non-Retired Members	49
Active Members	24
Total	115

Total Covered Payroll as of December 31, 2022:   \$    1,546,491

Covered payroll refers to all compensation paid by the District to active employees covered by the Plan.

**NOTE 6 - EMPLOYEE RETIREMENT SYSTEM - IMRF (continued)**

**Contributions** - As set by statute, the employer regular plan members are required to contribute 4.50 percent of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer annual required contribution rate for calendar years 2022 was 10.52%. For calendar year 2023, the rate is 7.72%. The District's contribution to the Plan for the calendar year 2022 was \$162,691. The employer also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

***Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflow of Resources Related to Pensions***

At April 30, 2023, the District reported a liability of \$956,054 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's portion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined.

Pension expense including IMRF and Social Security recognized in this report for the year ended of April 30, 2022 for the District was \$341,827.

Deferred outflows and inflows of resources for Future Pension Expenses as of April 30, 2023 is as follows:

	Deferred Outflows of Resources	Deferred Inflows of Resources	Net Deferred Outflows of Resources
Difference between expected and actual experience	\$ 21,759	\$ 4,587	\$ 17,172
Assumption Changes	-	3,528	(3,528)

**NOTE 6 - EMPLOYEE RETIREMENT SYSTEM - IMRF (continued)**

The \$48,727 of deferred outflows of resources results from the District's total contributions subsequent to the measurement date of December 31, 2022, and will be recognized as a reduction of the net pension liability in the year ending April 30, 2023. Amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Year Ending December 31	Net Deferred Outflows of Resources
2023	\$ 21,510

**NOTE 6 - EMPLOYEE RETIREMENT SYSTEM - IMRF (continued)**

***Single Discount Rate -***

The single discount rate is used for the purpose of the measurement of the total pension liability. This rate considers the ability of the fund to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. As long as assets are projected to be on hand in a future year, the assumed valuation discount rate is used. In years where assets are not projected to be sufficient to meet benefit payments, the use of a “risk-free” rate is required, as described in the following paragraph.

The Single Discount Rate is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The Single Discount Rate reflects:

1. The long-term expected rate of return on pension plan investments (to the extent that the plan’s fiduciary net position is projected to be sufficient to pay benefits), and
2. Tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan’s projected fiduciary net position is not sufficient to pay benefits).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.25%; the municipal bond rate is 2.75% (based on the daily rate closest to but not later than the measurement date of the “20-Year Municipal GO AA Index”), and the resulting single discount rate is 7.25%.

***Discount Rate Sensitivity*** - The following presents the plan’s net pension liability, calculated using a Single Discount Rate of 7.25% as well as what the plan’s net pension liability would be if it were calculated using a Single Discount Rate that is 1% lower or 1% higher:

**NOTE 7 – OTHER POST-EMPLOYMENT BENEFITS (OPEB)**

Effective as of May 1, 2018, Streamwood Park District applies the requirements of GASB Statement 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. Starting this fiscal year, the District is required to report the effects of post-employment use of the District’s healthcare plan on the government-wide financial statements. Employees, who also participate in the District’s pension program, and who are opting to leave the employ of the District have the opportunity to continue their healthcare coverage under the District’s plan. An implicit value is actuarially determined for this potential future cost and a long-term liability is reported. The District does not directly fund any post-employment benefits.

Plan Description: The District offers defined benefit OPEB benefits through the PDRMA Health Plan, administered by PDRMA, a public entity risk pool. The OPEB plan is not administered by a Trust that meets the criteria in paragraph 4 of GASB Statement 75.

Plan Membership: As of the measurement date of September 30, 2022, membership consisted of the following:

Retired members or beneficiaries currently receiving benefits	1
Active Members	20
Total	21

Under the Local Government Debt Reform Act of the State of Illinois, general obligation “alternate revenue source” bonds are not regarded or included in any debt computation of indebtedness for the purposes of the overall 2.875% of EAV debt limit or the non-referendum bond 0.575% of EAV limit so long as the debt service levy for the bonds is abated annually and not extended. Bonds issued as Installment Contract Certificates or Debt Certificates do not count under the non-referendum debt limit. These classifications of debt do not use property tax generated revenue to pay principal and interest due.

**NOTE 10 – INSURANCE - HEALTH**

The Streamwood Park District is a member of the Park District Risk Management Agency, (PDRMA) Health Program, a health benefits pool of park districts, special recreation associations, and public service organizations through which medical, vision, dental, life and prescription drug coverages are provided in excess of specified limits for the members, acting as a single insurable unit. The pool purchases excess insurance covering single claims over \$250,000. Until January 1, 2001 the PDRMA Health Program was a separate legal entity formerly known as the Illinois Park Employees Health Network (IPEHN).

Members can choose to provide any combination of coverages available to their employees, and pay premiums accordingly.

As a member of PDRMA Health Program, the Streamwood Park District is represented on the Health Program Council as well as the Membership Assembly and is entitled to one vote on each. The relationship between the member agency and PDRMA Health Program is governed by a contract and by-laws that have been adopted by resolution of each member’s governing body. Members are contractually obligated to make monthly payments to PDRMA Health Program and to fund any deficit of PDRMA Health program upon dissolution of the pool. They will share in any surplus of the pool based on a decision by the Health Program Council.

**NOTE 10 – INSURANCE – HEALTH (continued)**

The following represents a summary of PDRMA Health Program’s balance sheet at December 31, 2022, and the statement of revenues and expenses for the period ending December 31, 2022.

Assets	28,231,130
Deferred Outflows of Resources - Pension	337,460
Liabilities	7,038,847
Deferred Inflows of Resources - Pension	953,058
Total Net Position	20,576,685
Operating Revenues	33,472,368
Non-operating Revenues	(3,618,182)
Expenditures	34,619,747

A large percentage of PDRMA’s liabilities are reserves for losses and loss adjustment expenses, which are based on an actuarial estimate of the ultimate losses incurred.

At year end, the District had 24 full time employees who were covered by the PDRMA Health Program. The District pays approximately 95% of the employees’ premiums. Employees pay between \$325 to \$650 annually, depending on their type of coverage. For fiscal year 2023, the District paid \$467,514 for health insurance coverage.

**NOTE 11 – INSURANCE - RISK MANAGEMENT**

The District is exposed to various risks related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and net income losses.

The Streamwood Park District is a member of the Park District Risk Management Agency, (PDMRA) Property/Casualty Program. PDRMA is a public entity risk pool consisting of park districts, forest preserve districts, special recreation associations and certain non-profit organizations serving the needs of public entities formed in accordance with the terms of an intergovernmental cooperative agreement among its members.

Losses exceeding the per occurrence self-insured and reinsurance limit would be the responsibility of Streamwood Park District.

As a member of PDRMA’s Property/Casualty Program, the Streamwood Park District is represented on the Property/Casualty Program Council and the Membership Assembly and is entitled to one vote on each. The relationship between the District and PDRMA is governed by a contract and by-laws that have been adopted by resolution of Streamwood Park District’s governing body. The District is contractually obligated to make all annual and supplementary contributions to PDRMA, to report claims on a timely basis, cooperate with PDRMA, its claims administrator and attorneys in claims investigation and settlement, and to follow risk management procedures as outlined by PDRMA. Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member.

**NOTE 11 – INSURANCE - RISK MANAGEMENT (continued)**

PDRMA is responsible for administering the self-insurance program and purchasing excess insurance according to the direction of the Program Council. PDRMA also provides its members with risk management services, including the defense of and settlement of claims, and establishes reasonable and necessary loss reduction and prevention procedures to be followed by the members.

The following represents a summary of PDRMA’s Property/Casualty Program’s balance sheet at December 31, 2022 and the statement of revenues and expenses for the period ending December 31, 2022. The Streamwood Park District’s portion of the overall equity of the pool is 0.684% or \$302,191.

Assets	66,570,393
Deferred Outflows of Resources - Pension	787,406
Liabilities	20,949,149
Deferred Inflows of Resources - Pension	2,223,803
Total Net Position	44,184,847
Operating Revenues	17,464,224
Non-operating Revenues	(6,820,223)
Expenditures	23,554,952

Since 96.36% of PDRMA’s liabilities are reserves for losses and loss adjustment expenses which are based on an actuarial estimate of the ultimate losses incurred, the Net Position is impacted annually as more recent loss information becomes available.

There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

**NOTE 12 - DEFERRED COMPENSATION PLAN**

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

The plan assets are held in trust for the exclusive benefit of participants and beneficiaries and are not considered part of the financial statements of the reporting entity.

**NOTE 13 - UNEARNED REVENUES**

Park Place Community Center collects fees for memberships. Memberships range from one month to one year. The reserve for prepaid membership fees amounted to \$48,144. The Hoosier Grove Barn provides hall, gazebo and picnic shelter rental to the public for use. Participants reserve the facilities for a future date with a deposit. Deposits are not recorded as revenue but are deferred to the date of rental. Deposits deferred at the end of the fiscal year were \$459,988. The total deferrals are shown in the Recreation Fund as Unearned Revenue – Programs and totals \$508,131 as of April 30, 2023.

**NOTE 14 - LEASE AGREEMENT**

The District entered into a 5 year rental lease agreement with Rush Hospital on June 1, 2021. The hospital facility located at the Park Place recreation center will provide fitness, rehabilitation and other health programs to residents of the Streamwood Park District. The agreement states the District will receive \$40,000 per year for rents.

**NOTE 15 – JOINTLY GOVERNED ORGANIZATION**

The District is a member of the Northwest Special Recreation Association (NWSRA), which was organized by 16 area park districts in order to provide special recreation programs to the physically and mentally handicapped within their districts and to share the expenses of such programs on a cooperative basis. Each member district's fiscal year 2023 contribution is based on its pro rata share of 75% of the assessed valuation and 25% of the gross populations. For the year ended April 30, 2023, the District contributed \$144,417 to NWSRA.

NWSRA's Board of Directors consists of one member from each participating district. The Board of Directors is the governing body of NWSRA and is responsible for establishing all major policies and changes therein and for approving all budgets, capital outlay, programming, and master plans. The District is not financially accountable for the activities of NWSRA and, accordingly, NWSRA has not been included in the accompanying financial statements.

Complete financial statements for NWSRA can be obtained from NWSRA administrative offices at 3000 Central Road, Rolling Meadows, Illinois or at their website [www.nwsra.org](http://www.nwsra.org).

**NOTE 16 – SUBSEQUENT EVENT**

Subsequent events have been evaluated through December 14, 2023, the date the financial statements were available for issue.

**LEGAL COMPLIANCE & ACCOUNTABILITY**

Budgets and Budgetary Accounting

The budget basis of accounting follows the modified accrual method. All Governmental Funds and Agency Funds budgets have been legally adopted by the Park District. The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- A. Prior to April 1, the Treasurer submits to the Board of Commissioners a proposed operating budget for the year commencing the following May 1. The operating budget includes proposed disbursements and the means of financing them.
- B. Public hearings are conducted at the Annual Meeting to obtain taxpayer comments.
- C. The budget is legally adopted.
- D. The Board of Commissioners is authorized to transfer up to 10% of the total budget between departments within any Fund; any revisions that alter the total disbursements of any Fund must also be approved by the Board of Commissioners. Appropriations lapse at year end.
- E. Formal budgetary integration is employed as management control device during the year for the Operating Funds.
- F. The Budgets are presented on a cash-basis of accounting and all funds presented have been legally adopted by the Park District Board Members.
- G. Budget amounts are as originally adopted.

Fund Expenditures Exceeding Appropriations

Illinois State law prohibits the spending of money exceeding the annual appropriation. All funds of the District operated within their approved appropriations.
